Intended Major: Computer Science & Mathematics

Education

Woodgrove High School — Purcellville, VA — Expected Graduation: June 2026

GPA: — 4.19 (Weighted GPA)

Highlighted Coursework: — AP Calculus BC, AP Computer Science A, AP Computer Science Principles, Computer Mathematics, Dual Enrollment ASL

Honors & Awards: — AP Scholar with Honor, National Top School Recognition, Future Innovator in Computing Award, Laurent Clerc Medal, and Alice Cogswell Medal

Certifications: — CompTIA ITF+ certified and Microsoft Office Specialist - Associate

Leadership & Activities

President & Founder — Computer Science Honor Society

Led the creation of the school's first CS Honor Society; organized events, built a website, and promoted peer learning with computer science challenges and Microsoft Micro:bits.

President — Japanese Club

Doubled membership; coordinated cultural events, international connections, and school events.

Member & Tutor — Mu Alpha Theta

Provided 90+ hours of tutoring; supported math faculty and students across multiple math levels. Proctored tests.

Member — Academic Team

Competed in quick-recall regional academic tournaments; developed teamwork and interdisciplinary problem-solving.

Member & Volunteer — National Honor Society

Coordinated school volunteer events; strengthened school-community relations.

Election Page — Loudoun County Government

Assisted election officials with setup, voter guidance, and polling logistics.

Volleyball — Northern Virginia Volleyball Association

Team member; B Division runner-up ('22, '23) and champion ('24).

Computer Science Projects

Neonodal — A Python graph-theory interest project based on a Youtube series
[GitHub](<https://github.com/mindedmac/Neonodal>)

OCaml Playground — A collection of experimental OCaml projects developed during a summer program at Stevens Institute of Technology, focusing on problem solving and algorithmic efficiency.
[GitHub](<https://github.com/mindedmac/OCaml-Playground>)

mindedmac.me — Work-in-progress personal site that will showcase future research, personal projects, and games such as Chess and Gomoku.

Skills

Python, Git, HTML/CSS, Java, JavaScript, and OCaml.

Proficient in English and American Sign Language.

Proficient in Microsoft Access, Excel, Powerpoint, and Word.
